Subject: Bio Report, Grading/Construction Schedule, EC Follow-up Inspection

Hi Noel and Tay,

On the second page of the report under “Measure 2b Nesting Bird Survey Results” it looks like there is a typo on the date of the nesting bird survey. Tay, please update the date to reflect the date of the survey to reflect the August survey date (it currently states July 16, 2019).

Noel, when you get a chance, please send the grading and construction schedule, including full Erosion Control installation date, start of rough grading, finish date of rough grading, start of fine grading, end date of fine grading/ stabilization of land with erosion blankets, estimated landscaping date.

Also, please contact SWCA when you are ready for a follow-up site inspection to confirm compliance with SWCA’s recommendations of 7/16.
