Re: **Regular Agenda Item 2** appearing on the Planning Commission's 4/22/2020
Agenda

Dear Chair Hansson and Commissioners:

At the appropriate time during the hearing on this matter, I request to speak (via telephone) to the Commission regarding this trail/development project; in that contrary to assurances given at the Commission's last meeting that projects of precisely this sort occurring on ranch/farm lands are routinely vetted by the Agricultural Advisory Committee before being submitted for your consideration; this has not occurred in regards to this *Application*.

I will be requesting that the Planning Commission have/require the Agricultural Advisory Committee's informed advise and/or recommendations regarding *Agenda Item 2* before you make your decision on its proposal(s).

Sincerely,

Ron Sturgeon
San Gregorio
